Embedded Data - Teacher Id: **mbhui008**

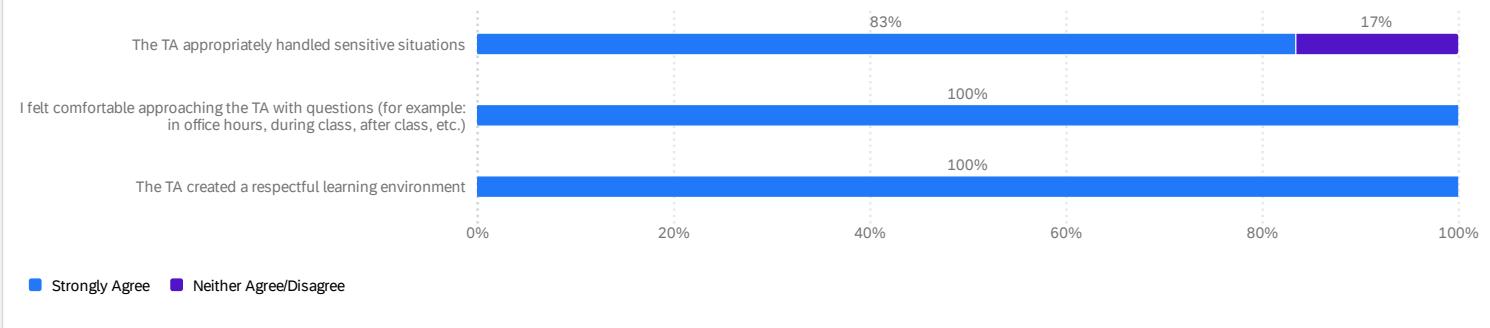

This page allows you to view the end-of-term SET TA Laboratory results for your courses. By default, results are aggregated across all of your courses. To view results for fewer courses, or a single course, use the filters at the top of the page. Results for your most recent courses are available after the grade submission deadline.

### TA's Strengths 6

understood respond work  
 notebook godsend material student  
 gave basically email nudge  
 stuck direction additional back  
 hard lab help great solve  
 guidance quick give allow make works  
 prepared realize

### TA's Strengths 4

#### Q7 - What are some of your TA's strengths?

The helper notebooks were godsends, as they basically allowed me to go back and realize WHY everything works.

Responds to emails quickly. Gave good guidance during the labs and was well prepared.

Worked hard to make sure we understood the lab

The TA helped students by giving them a nudge on the direction to take to solve the material. Additionally, he was a great help when we got stuck on something.

### TA's Areas for Improvement 6

wait  
 talk slow lab  
 driven

### TA's Areas for Improvement 3

#### Q9 - What might your TA do to improve?

Not much, as the lab is self-driven and he's waiting there for us to ask for help.

n/a

Talk a little slower

### Additional Comments 3

#### Q8 - Do you have any additional comments?

He was a better teacher than the professor.

n/a

## Q8 - Do you have any additional comments?

Olid is a super good TA, he really cares about his students success, giving prelab notes super early and giving insights into how he thinks we should best study the material really early in advance.

professor  
think study material student  
teacher best advance care super  
prelab early better insight  
give good note  
success olid
